

## Declaration of China RoHS Compliance

Dear Customers,

Firstly, thank you for your all-time great support to our company!

Our company has been committing to protect the environment, and following the requirements of such regulations as 《Measures for the Administration of restrictions on the use of hazardous Substances in Electrical and electronic products》, 《Standard management catalogue (the first batch) for the restricted use of Electrical and electronic products hazardous substances》 and 《A list of exceptions to the application of restricted substances in the standard management catalogue》 which were listed in Order No. 32 issued by the State General Administration of Quality Supervision, Inspection and Quarantine on January 6, 2016. We guarantee that all the relay products provided can fully meet the China RoHS requirements, and we do not intentionally add the chemicals as shown in the following table, which indicates the limit value for the substance contained.

Types of Hazardous Substance	Maximum Value	Exception list number
Pb (Lead)	1000ppm	8.3.1
Hg (Mercury)	1000ppm	
Cr6 <sup>+</sup> (Chromium VI)	1000ppm	
PBBs	1000ppm	
PBDEs	1000ppm	
Cd (Cadmium)	100ppm	34.2

**Note:**

Lead and cadmium, exception numbers 8.3.1 and 34.2, which are contained in the partial relay products supplied by our company, are excepted according to 《A list of exceptions to the application of restricted substances in the standard management catalogue》. Therefore, all the relay products as supplied comply with China RoHS.

Hongfa products are used as accessories for the production of electronic and electrical products. There is no need to use hazardous substances restriction identification on the relay products at present per the requirements of the standard SJ/T 11364-2014 《Identification requirements for the restricted use of hazardous substances in electronic and electrical products》. However, we are willing to provide all the required information for the identification and make the identification if necessary according to the above standards and customer requirements.
